Many of the youth who participated in the Futures Leaders Workshop live in areas where they see shootings and chalk outlined bodies. It numbs one to see that some have accepted this “sentence” of their environment as normal. We need more concerned advocates in the community to address the critical issues that were addressed in this workshop”.

Mary E. Simmons, Director
Future Leaders Program
Winton Hills, Cincinnati, Ohio

“The Power of One philosophy is to teach youth that they have choices and with choices comes responsibility. This program is very much in line with the educational philosophy espoused to our children. One must learn to respond with not your hands and feet”.

Shelia Taylor, Former Principal
N. Fairmount Elementary
Cincinnati, Ohio

“I want each and every person to experience the unlimited power we each posses and to utilize this power to its fullest potential in all areas of life”.

Dr. Robert L. Akikta
CEO/ Founder

The Power of One / Power of Unity, Inc.
Helps Your Community!
“We are here to Engage, to Educate, and to Empower YOU in preventing the violence within your community by using peaceful solutions!”

The Power of One Program

The Power of One Enterprises, LLC/Power of Unity, Inc. is a non-profit organization established to engage, to educate, and to empower. We are to guide individuals of all ages on how to make decisions to carry out a positive lifestyle. In turn, this will help individuals establish self-esteem characteristics, good decision-making, and handling conflict resolution in a non-violent manner.

This program teaches the importance of prevention self awareness, discipline, and personal power in finding ways to deal with victimization using peaceful solutions. The program affirms No Drug or Substance Abuse as a source of personal self-development.

Participants who take part in this program will be empowered to emotionally, physiology, verbally, physically, and universally deal with their significant others, family, and community in a positive manner. Through the training of the basic social life skills participants will be able to overcome negativity within their school, workplace, or in the community in a positive manner. By learning the techniques and strategies of the program, it holds the individual accountable for their actions, and it reinforces them to use peaceful solutions to deal with the violence.
